Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
[Presentation Layer]	Provides the user interface for entering applicant details Handles HTTP requests, validates inputs,	[Database]
[API Gateway]	and connects the frontend	
[Microservices]	Performs data preprocessing, feature engineering, loads the trained model, and predicts whether the application will be approved or rejected.	
	Stores the dataset, trained model, and optionally	

istory for future reference.
